Theme Options - Customize

Visit `/admin/appearance/settings/ziston_sub` to configure your theme's settings. You can select your color scheme, add your own custom CSS, add your own custom logo, etc.

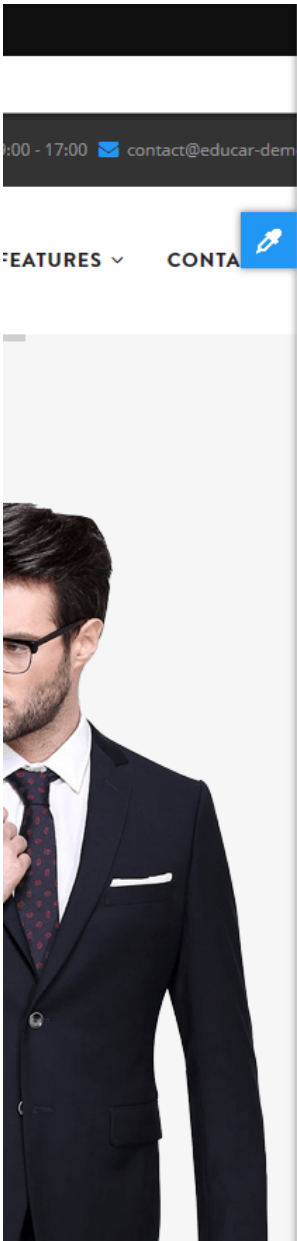

You can enable Customize Tool of theme

The screenshot shows a navigation bar with three tabs: 'List', 'Update', and 'Settings'. The 'Settings' tab is active. Below the tabs, there are four subtheme options: 'Global settings', 'Seven', 'Ziston Theme', and 'Ziston subtheme'. The 'Ziston subtheme' option is selected and underlined.

[Home](#) » [Administration](#) » [Appearance](#) » [Appearance settings](#)

These options control the display settings for the *Ziston subtheme* theme. When your site is displayed using this theme, these settings will be used.

The screenshot shows the 'Appearance settings' page for the 'Ziston subtheme'. On the left, there is a sidebar with several settings categories: 'Logo options', 'General options', 'Header options', 'Footer options', 'Map Settings', and 'Customize'. The 'Customize' option is highlighted with a red box. In the main content area, the 'Enable Display Cpanel Customize' setting is set to 'Enable', also highlighted with a red box. Below this, there is a section for 'Add your own CSS' with a text area containing the number '1'.
